

THE MYSTERY OF WILDERNESS

**Joey Jimenez**, Backcountry Guide

Former Director of RMR Backcountry, a wilderness program for Young Life, shares some great insight on the role of wilderness in a man's life. We understand that the wilderness for all men can be an intimidating and misunderstood place but Joey shares that it is more about taking risks than it is about a certain location that you can't get cell service. Our challenge to you and your small group is to get out into the wilderness together and see what God may have for each of you as individuals and as a group.

Follow Up Questions:

What is your story/experience with being in the wilderness?

Are those experiences solo or with others?

How would you describe the wilderness?

What desires or fears do you have about the wilderness?

What do you think God has for a man in the wilderness?
